5 p. m.—Barometer (actual) 29.72 inches; temperature 98.0 degs.; dew-point, 59 degs.; relative humidity, 27 per cent; vapor pressure, .499; wind, nw, 7 miles per hour; sky, cloudy. Highest temperature in twenty-four hours ending 5 p. m., 99.0 degs.; lowest, 73.0 degs. Weather during day, partly cloudy.

WM. BURROWS, Observer.

LOCAL BRIEFS.

A Record of Yesterday's Happenings.

Real Estate Transactions—A Large Budget of Interesting News Notes.

Dr. J. H. Gentry, physician and surgeon, Second avenue, opposite The Ford.

The well known Marlow Jersey butter is on sale at Buxton & Co's. This butter is the best sold in the city, having been thoroughly tested and found by far the best.

Architect Heinlein and M. H. McCord left last night for Flagstaff to note the progress on the new reform school.

Wanted—To trade a new phaeton cart for light buggy, will pay difference. Inquire at barber shop, North First avenue.

The grading of the Northern Addition railway has been completed to the end of the line. The rails have been laid about half way.

The section crews along the line of the north and south road are now busily at work on the road bed of the line preparing for winter.

A heavy rain of twenty-four hours' duration is reported having occurred lately north of Phoenix along the line of the north and south road.

O. H. Jackson, master mechanic of the S. F. P. & P. railroad, was in the city yesterday to look at matters within his jurisdiction over this end of the line.

The best proof of good goods sold cheap is to buy a bill at Alkire's, especially within the next five days. Bargains such as you never heard of are to be had there.

Three cars of iron trussing and roofing for the Fleming building arrived yesterday. The Phoenix Plumbing company received the contract for putting the roofing on for \$600.

The M. & P. company was yesterday advised that the first train, consisting of twelve new palace stock cars, had left Chicago for Phoenix. The cars will arrive in a few days and are for use on the M. & P. line.

Fall in prices at Alkire's and all because fall is coming and a large stock of goods are on the road that must be stored and sold. Do you want to buy some handsome summer goods for a song? Call at Alkire's.

Alkire has a bargain for every lady in the valley. Fine summer dress goods, lawns, mulls, organdies, challies, muslins and calicoes. If you want to

lay in a supply for less than half price call at this store in the next five days.

An excursion will leave Tempe tomorrow morning at 9 o'clock to enable south riders to attend campmeeting services at the park. The train will return for Tempe at 8 o'clock in the evening. The fare for the round trip will be 50 cents.

The very unsatisfactory item which appeared in The Gazette yesterday concerning a prominent business man and church member violating a United States law has kept a good many guessing. At any rate the nervous ones are ready to prove an alibi.

Jesus Gerrero, who was arrested for stealing cordwood from A. L. Henshaw's place under the Buckeye canal, plead guilty to the charge yesterday before Justice Kincaid and was sentenced to serve thirteen days in the county jail. His partner, who was included in the theft, has not as yet been captured.

The city marshal yesterday borrowed two more county prisoners from the sheriff to assist the chain gang in beautifying Montgomery's addition. The county has several idle prisoners and many of them might just as well be turned over to the city marshal to work out their sentences on the streets.

Seven head of cattle were stolen from the pasture of Neile Peterson south of Tempe last Monday night. The thieves, three in number, boldly entered the field and drove out the cattle. The only trace obtained of the cattle was that the men were seen driving them towards Phoenix the following day.

By an Associated Press telegram received last night it is learned that J. W. Walker, of the firm of Steele and Walker, the largest general store in St. Joseph, Mo., committed suicide yesterday in the Midland House at Kansas City. Mr. Walker spent several days in Phoenix about a month ago and made many acquaintances.

Ralph Hall unwisely entered P. Minor's ice refrigerator on Wall street yesterday and somebody closed and locked the door. The temperature in the refrigerator was hovering near zero but the inmate did not relish the joke and his temperature raised to boiling heat. The ice began to melt rapidly and Ralph to swear profusely. After keeping him locked up for five minutes he was released but he is still the hottest man in town.

The following real estate transfers reported by Coggins & Brown, abstractors, were yesterday entered for record: Carlos A. Turney and wife to Guy M. Little, lot 9, block 4, Churchill addition; Guy M. Little to Mrs. Chas. Goldman, lot 9, block 4, Churchill addition; W. P. Hulbert to M. Wormser, east 60 acres of sec 19, twp 1 n., r 3 e.; S. C. Symonds and A. C. Sheldon to Rio Verde Canal company, water location and franchises on Verde river.

The Fort Thomas base ball club has written the Phoenix club a challenge to play a match game at an early date. The local club will meet tomorrow near the West End house to decide on the matter and to play a practice game. The soldier boys from Fort Thomas are going to play the circuit and if they play a game with the local team they will go to Prescott to cross bats with the Fort Whipple team. The Phoenix club is anxious to play them a game and will in all probabilities accept the challenge.

The business houses of the city deserve to be commended for their prompt action in closing their stores at 6:30 o'clock in the evening. Now that they have the movement started a good many of them are willing to keep closed after that hour even after campmeeting is over. There is only one merchandise store that remains open after 6:30 in the evening; all the clerks however, have their liberty after that hour but it is not satisfactory to the other merchants and is not a fair proposition for one to remain open after the other stores are closed.

The board of equalization have raised the returns from three counties. In Maricopa county 10 per cent was raised on town and city property and the same on cattle. Fifty per cent was raised on acreage lands of Cochise county and 250 per cent on mules. The reason for the high raise in the latter case was because that returns were very low and it was necessary in order to equalize it with that of the rest of the territory. Yuma county was raised 40 per cent on acreage land; city and town lots 15 per cent; improvements 12 per cent.

The petrified man still remains a matter of much discussion. Yesterday Hi McDonald was accused by Lum Gray of having shot the man seventeen years ago and Hi in turn accuses Lum of doing the deed but as no petrified bullet holes can be discovered in the man both must be innocent. No inquest has been held as yet on the form but a good many are anxious to have it dissected and are urging that an inquest be held. It is said that the owners are waiting the arrival of the circus to sell the alfalfa-fed petrified man. But if it is of local manufacture, the Fresno petrified man factory has a strong competition in Phoenix.

A young Phoenix man who had never straddled a bicycle before thought it would be nice fun to hire a tandem and take his girl out riding. Last night he procured the wheel for two, and led it around to the home of his young lady

friend. It happened that she also had never learned to ride, but was willing to try it. The young man hung his coat on the fence and placed his girl on the wheel, then attempted to mount himself. The result can be imagined. Several efforts were made by the pair to get up steam, but it ended when the wheel collided with a fence. The young man lost a section of cuticle from his nose, then bribed a boy to take the wheel back to the shop.

Don't Go

Coughing around. You can stop if you want to by using Parks' Cough Syrup. If it doesn't cure your cold you can get your money back. Sold by C. Eschman & Co. 2

Park swimming bath—cool—delightful—refreshing.

Notice.

All accounts due the Gazette Publishing company up to August 1, 1895, must be paid to F. M. Czarnowski. By order of W. T. Smith, President. J. L. B. ALEXANDER, Secretary.

Save Assessment Work on Mines. The new law requires annual work on every location or relocation. This is saved by obtaining a United States patent. Five hundred dollar's worth of work or improvements on one mine, or scattered over a group of adjoining mines, is sufficient to ensure a United States patent to any number of mines so grouped, or for a single mine. Further information cheerfully given by letter or personally. Terms of survey reasonable. Apply to

LEWIS WOLFLEY, Civil and Mining Engineer and U. S. Deputy Mineral Surveyor, Phoenix, Arizona.

Awarded Highest Honors—World's Fair, DR.

PRICE'S CREAM BAKING POWDER

MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 YEARS THE STANDARD.

My Sweetheart.

Her cheeks are like the roses,
Her brow is like the moon;
And well I know the reason,
She takes Parks' Tea each night.
She's strong and well and happy, too,
Her face is clear and bright,
And laughingly she tells the cause,
"I take Parks' Tea each night."

Sold by C. Eschman & Co. 1

Tovrea's meat market, West Washington St.
